

Contents of Volume 67 · 2003

- Allik J, Toom M, Luuk A: Planning of saccadic eye movements 10
- Ando Y → Fujii K
- Ansorge U: Influences of response-activating stimuli and passage of time on the Simon effect 174
- Band GPH, Ridderinkhof KR, van den Molen MW: Speed-accuracy modulation in case of conflict. the roles of activation and inhibition 266
- Bestgen Y, Dupont V: The construction of spatial situation models during reading 209
- Bloemsaat G, Van Galen GP, Meulenbroek RGJ: Lateralized effects of orthographical irregularity and auditory memory load on the kinematics of transcription typewriting 123
- De Boeck P → Rijmen F
- de Labra C → Valle-Inclán F
- Diedrichsen J → Hazeltine E
- Dupont V → Bestgen Y
- Eiter BM → Inhoff AW
- Engelkamp J, Jahn P, Seiler KH: The item-order hypothesis reconsidered: The role of order information in free recall 280
- Favretto A → Hubbard TL
- Fujii K, Sugi S, Ando Y: Textural properties corresponding to visual perception based on the correlation mechanism in the visual system 197
- Gullaoud-Toussaint L, Vinter A: The effect of discordant sensory information in graphic production: two distinct subject groups 291
- Hackley SA → Valle-Inclán F
- Hazeltine E, Diedrichsen J, Kennerley SW, Ivry RB: Bimanual cross-talk during reaching movements is primarily related to response selection, not the specification of motor parameters 56
- Hirshhorn M → Pratt J
- Hoffmann J, Martin C, Schilling A: Unique transitions between stimuli and responses in SRT tasks: Evidence for the primacy of response predictions 160
- Hubbard TL, Favretto A: Naïve impetus and Michotte's "tool effect": evidence from representational momentum 134
- Inhoff AW, Eiter BM: Knowledge of word length does not constrain word identification 1
- Ivry RB → Hazeltine E
- Jahn P → Engelkamp J
- Kennerley SW → Hazeltine E
- Kerzel D: Asynchronous perception of motion and luminance change 233
- Koch I, Metin B, Schuch S: The role of temporal unpredictability for process interference and code overlap in perception-action dual tasks 244
- Kunde W: Temporal response-effect compatibility 153
- La Heij W → Mitterer H
- Luuk A → Allik J
- Müller-Plath G, Pollmann S: Determining subprocesses of visual feature search with reaction time models 80
- Martin C → Hoffmann J
- McNevin NH, Shea CH, Wulf G: Increasing the distance of an external focus of attention enhances learning 22
- Metin B → Koch I
- Meulenbroek RGJ → Bloemsaat G
- Michelon P, Zacks JM: What is primed in priming from imagery? 71
- Mitterer H, La Heij W, Van der Heijden AHC: Stroop dilution but not word-processing dilution: evidence for attention capture 30
- Neumann O → Scharlau I
- Notebaert W, Soetens E: Irrelevant auditory attention shifts prime corresponding responses 253
- Pollmann S → Müller-Plath G
- Pratt J, Hirshhorn M: Examining the time course of facilitation and inhibition with simultaneous onset and offset cues 261
- Proctor RW → Roswarski TE
- Ridderinkhof KR → Band GPH
- Rijmen F, De Boeck P: A latent class model for individual differences in the interpretation of conditionals 219
- Roswarski TE, Proctor RW: The role of instructions, practice, and stimulus-hand correspondence on the Simon effect 43
- Scharlau I, Neumann O: Perceptual latency priming by masked and unmasked stimuli: Evidence for an attentional interpretation 184
- Schilling A → Hoffmann J
- Schuch S → Koch I
- Seiler KH → Engelkamp J
- Shea CH → McNevin NH
- Soetens E → Notebaert W
- Sugi S → Fujii K
- Toom M → Allik J
- Valle-Inclán F, Hackley SA, de Labra C: Stimulus-response compatibility between stimulated eye and response location: implications for attentional accounts of the Simon effect 240
- Van der Heijden AHC → Mitterer H
- Van Galen GP → Bloemsaat G
- van den Molen MW → Band GPH
- Verwey WB: Processing modes and parallel processors in producing familiar keying sequences 106
- Vinter A → Gullaoud-Toussaint L
- Wulf G → McNevin NH
- Zacks JM → Michelon P
